Beschreibung

Classe 7 labels for **Radioactive Material Category II – Yellow** include the text **"RADIOACTIVE II"**.
They have a permanent adhesive, an indoor and outdoor life of 2 years, with prefabricated diagonal cuts on the back to facilitate detaching the labels.
The products come in thermowrapped packs and are made in Italy.
The adhesive is such that the information will still be identifiable on packages surviving at least 3 months immersion in the sea, as required by the IMDG Code (5.2.2.2.1.7).
The labels comply in shape, colour, format, symbol and text to the specifications as required by the Regulations on the Transport of Dangerous Goods.
