Use	Packages
Material	PP (Polypropylene)
Package	Roll of 500 in boxes of 3000 pieces

Description

Class 3 labels for **Flammable liquids** include the text "**Flammable liquids**" often requested by some Operator Variations. They have a permanent adhesive, an indoor and outdoor life of 2 years, with pre-cut zig-zag supports to facilitate detaching the labels. The products come in thermowrapped packs and are made in Italy. The adhesive is such that the information will still be identifiable on packages surviving at least 3 months immersion in the sea, as required by the IMDG Code (5.2.2.2.1.7). The labels comply in shape, colour, format, symbol and text to the specifications as required by the Regulations on the Transport of Dangerous Goods.
