

## TECHNICAL DATASHEET

<b>Code</b>	BOX-LB43-ZPE
<b>Brief Description</b>	Lithium Battery Mark UN3091, mm 100x100, PE, box of 3000
<b>Use</b>	Packages
<b>Material</b>	PE (Polyethylene)
<b>Package</b>	Roll of 500 in boxes of 3000 pieces
<b>Dimensions</b>	100 x 100 mm
<b>Country of origin</b>	Italy

**For shipping:**

✓ ADR ✓ RID ✓ ADN ✓ IMDG ✓ IATA

### Description

The lithium battery mark is to be used to mark packages for shipment with the following provisions/packing instructions:

- Special Provision 188 (ADR, RID, ADN, IMDG).
- - P.I. 969 Sect. II and P.I. 970 Sect. II (IATA).

The product is printed with UV protective coating.

It has a permanent adhesive with internal and external durability of 3 years with support for tearing between labels.

The product has a heat-shrink wrapping and its country of origin is Italy. As required by the IMDG Code, the adhesive is durable after immersion of 3 months at sea (IMDG Code 5.2.2.2.1.7).

The label is compliant in design, size, colour and symbol to the requirements of the regulations. \*A label 9A is also required (always check with your consultant for the correct labelling and marking to be applied to the package).
