Description

Environmentally Hazardous Substances marks (Marine Pollutant Mark) must be used when you ship or carrier the goods that are classified Marine Pollutant in reference to GHS/CLP.

They have a permanent adhesive, an indoor and outdoor life of 2 years and are easy to apply.

The products come in thermowrapped packs and are made in Italy.

The adhesive is such that the information will still be identifiable on packages surviving at least 3 months immersion in the sea, as required by the IMDG Code ((5.3.1.1.1 (at point 2))).

The labels comply in shape, colour, format, symbol and text to the specifications as required by the Regulations on the Transport of Dangerous Goods.

It has replaced code PAN-1183-SK.
