<b>Dimensions outer</b>	235 x 175 h mm
<b>Package</b>	of 1000 pieces

### Description

Quick and easy to apply, it adheres firmly to all surfaces and can hold and repair the various documents attached to the shipment. The self-adhesive envelope does not require any other means (e.g., glue, adhesive tapes, etc.) to be attached to the package or pallet. Insert all the documents that are to accompany your goods (such as TD, bill, invoice, etc.), once the envelope is affixed to the package and closed it will need to be broken in order to extract the documents. The transparent material of the envelope allows easy inspection and reading of the inserted documents in view.
