TECHNICAL DATASHEET

Code	VER-1000-POL
Brief Description	Polystyrene chips, bag of 250 L (1/4 m3), 0,8 kg
Support	Materiale di imbottitura e antiurto
Country of origin	Italy
Dimensions outer	50 x 50 x 100 h cm
Weight	0.80 kg
Package	PE bag

Description

Expanded polystyrene chips bags are the practical, economical and effective solution for packing fragile and delicate items. Their "S" shape allows you to fill empty spaces, guaranteeing protection for the goods from shocks and vibrations, preserving them during transport. Thanks to their composition, the polystyrene chips are resistant to compression and humidity, keeping the goods dry inside the package. White in color, they can be used as a filler for each box, with the exception of 4GV packaging. Thanks to the excellent weight / volume ratio, the polystyrene chips help reduce shipping costs.
