**Description**

**PyroBox FW40** is one of the boxes of the Serpac PyroBoxes product line dedicated to the shipment of some explosives from Class 1. This packaging is suitable for the transport of fireworks according to ADR, RID, ADN, IMDG and ICAO-TI / IATA regulations. This UN 4G box can be used only in combination with specific inner packagings which the box had been successfully tested with, the inner packagings described in a test report. The test report and UN certificate of the PyroBox FW40 contain all information required by the responsible controlling authorities (UN number, name of the explosive, etc.), it allows you to ship your products avoiding the block of goods or other related obstacles.
