Description

UN certified 4G fibreboard boxes supplied with pulp kit and 2 glass bottles of 1 L - PG511

UN certified 4G boxes are supplied with the specific inner packagings (glass bottles) with which they have been tested. Ideal for shipping samples, for example of chemical products or for the supply of the product.

The 4G boxes supplied with the specific inner packaging do not require the use of vermiculite.

Innovative and easy to use solution, it guarantees time savings in preparation, shipping security and lower transport costs.

The 4G boxes supplied with glass bottles are approved for the shipment of dangerous goods according to ADR, RID, ADN, IMDG and ICAO-TI / IATA.

They can be used to ship goods belonging to packing groups I (X), II (Y) and III (Z).
