

TECHNICAL DATASHEET

Code	4G-3105-NT
Brief Description	UN 4G box PG805/NT, mm 780x580x425h inner useful
Type	PG805
Print	Neutral
Provided	Flat
Approval	4G/Y83/S/** B/SERPAC.412-060030
Country of origin	Italy
Vibration test	Yes (178.608 - 49CFR)
Dimensions inner	780 x 580 x 425 h mm
Dimensions outer	800 x 600 x 455 h mm
Dimensions package	1400 x 1050 x 70 h mm
Dimensions pallet	1400 x 1050 x 1300 h mm
Weight of the fibreboard box	3,308 kg each
Package	Pack of 5 pieces

For shipping:

✔ ADR
 ✔ RID
 ✔ ADN
 ✔ IMDG
 ✔ IATA

Solid products contained in plastic bags (bag weight between 1 and 25 kg)	83 (Y83)	(PG805-4G/Y83)	PP36 , 75 mm, HE

Description

A fibreboard 4G box, referred to in regulations as "UN-certified 4G fibreboard box", is a specific type of fibreboard UN-certified outer packaging containing one or more specific inner packaging(s). In order to respect their certification validity, UN-certified 4GV boxes must be used only together with the specific inner packaging and content they were tested with and approved by the certifying body. This specific inner packaging will be the same mentioned in the test report. Furthermore, maximum gross weight and closing instructions defined in the test report must be observed, too (dimension of adhesive tape, type of adhesive tape and closing system). Any unauthorized change would invalidate the certification. To check details of UN certification you can read the "Technical details" of 4G box or the test report of the UN-certified 4G packaging.

Concerning "different perfumery products for personale care", this 4G box has been tested with different glass bottles with a specific spray trigger put inside their case. This type of inner packaging contains perfumery products for personale care (alcohol-based perfumes for personale care). An additional packaging made of corrugated or flat cardboard is not required (grouping box). Special tests allowed us to UN-certify, together with the certifying body, different types of packaging for the shipping of various perfumery products for personale care.

Our 4G boxes are certified according to ADR, RID, ADN, IMDG and ICAO-TI / IATA regulations, shippers are responsible of checking

if their dangerous goods can be shipped with the chosen transport mode.
