TECHNICAL DATASHEET

Code	4G-3107-NT
Brief Description	UN 4G box PG807/NT, mm 280x180x230 inner useful
Type	PG807
Print	Neutral
Provided	Flat
Approval	4G/Y9/S/** B/SERPAC.412-060023
Country of origin	Italy
Vibration test	Yes (178.608 - 49CFR)
Dimensions inner	280 x 180 x 230 h mm
Dimensions outer	300 x 200 x 260 h mm
Dimensions package	500 x 460 x 252 h mm
Dimensions pallet	1300 x 1000 x 1300 h mm
Weight of the fibreboard box	0,333 kg each
Package	Pack of 17 pieces

For shipping:

✔ ADR ✔ RID ✔ ADN ✔ IMDG ✔ IATA

Approved for	Max gross weight packaging kg	Certification / (Extension)	Tape, width, system
Different perfumery products, in glass bottles, for personal care	9 (Y9)	PG807-4G/Y9	PP36, 50 mm, U
Different perfumery products, in glass bottles, for ambient	4,30 (Y4.30)	PG2284 – 4G/Y4.3	PP36, 50 mm, U

Description

UN certified 4G fibreboard box for shipping perfumery products for personale care (UN1266) in different glass ampoules contained in their case, WITHOUT NEED of a grouping box.

The UN certified 4G boxes can only be used in combination with the specific inner packaging with which they have been tested and UN certified.

To check the allowed inner packaging, the maximum gross weight and the correct closing system, you can consult our summary table or the test report of the box.

Concerning “different perfumery products for personal care”, this 4G box has been tested with different glass bottles with a specific spray trigger put inside their case. This type of inner packaging contains perfumery products for personal care (alcohol-based perfumes for personal care). No additional packaging made of corrugated or flat cardboard is not required (grouping box).

This box has also been UN-certified for “Different perfumery products for ambient”, also classified as UN1266. The box has been tested with glass bottles of different dimensions and shapes put inside their case and containing ambient fragrances. In this case, no additional packaging made of corrugated or flat cardboard is either required (grouping box). We performed special tests that allowed us to UN-certify, together with the certifying body, different types of packaging for the shipping of various perfumery products for personal care and ambient fragrances.

Our 4G boxes are certified according to the ADR, RID, ADN, IMDG and ICAO-TI / IATA regulations, it is the responsibility of the shipper to verify the feasibility of shipping his dangerous goods with reference to the mode of transport chosen.

For the shipment of lithium batteries it is necessary to purchase the box including the lithium battery kit (code 4G-3107-SR).
