Description

Amber glass bottle of 1 L, with screw cap, dimensions cm 95x95x230h

Amber glass bottles, solid and resistant, equipped with seal cap. Glass bottles can be used to contain most of the goods, thanks to the chemical compatibility of the material. For the shipment of dangerous goods it is necessary to use the bottles in combination with precise UN certified 4G boxes or with any UN certified 4GV box following the relative indications. Our amber glass bottles comply with the requirements of all the regulations (ADR, RID, ADN, IMDG) and in particular of the ICAO-TI / IATA regulation regarding the internal pressure difference and the double closure. Attention: before using any inner packaging, it is necessary to check the chemical compatibility between the container and the dangerous goods that you want to insert.
