Material for which it has been approved	Closing
Liquids	Screw cap with seal

### Description

The 12,5 L UN certified 1B1 bottles are produced using 1050 A aluminum, a 100% recyclable material.

This type of packaging is suitable for containing and shipping dangerous goods such as flavors, perfumes, sensitive chemicals, adhesives and solvents.

The aluminum bottles are supplied complete with cap and undercap, necessary for the validity of the UN certification.
