Description

Always available in stock different type of ADR bag.

ADR bag includes all items of equipment for general and personal protection which each transport unit carrying dangerous goods shall be provided with.

Choose one of our 5 ADR bag in stock in accordance with the primary and secondary hazard (hazard labels that there are on your packages) of the goods loaded.

As prescribed in section 8.1.5 of ADR, every unit of transport for dangerous goods must be supplied with the proper general and personal protection equipment. Our ADR bags contain useful personal equipment for one operator only. If there is more than one operator on the vehicle, it is necessary to supply each of them with the personal equipment required for the transported type of goods.
