Description

Bolt lock seals for containers - Serpac
High security container bolt seal (Serpac logo) **is compliant** with high security international standard **ISO 17712:2013** and therefore suitable to seal containers.

It can be used to transport by sea or by land, ideal for containers and transport means. For a higher safety, **a progressive and unique double number** is present on the seal and on the bolt.

It is possible to require a customized laser print to add a barcode, a logo or a text (min 500 pcs).
